

CET Syllabus of Record

Programs: CET Jordan

Course Code / Title: (AM/LANG 262) Intermediate Jordanian Dialect

Total Hours: 40

Recommended Credits: 2

Primary Discipline: Arabic Language

Language of Instruction: Arabic

Prerequisites/Requirements: ACTFL Intermediate-High or Advanced-Low level in MSA. Final placement at discretion of Academic Director.

Description

This course is offered to students who are comfortable using complex grammatical structures and an actively controlled vocabulary base to conduct conversations and write paragraphs on a range of more advanced topics. They can read and sufficiently comprehend primary source Arabic materials of limited complexity on familiar subjects. Jordanian dialect course hours are front-loaded to build a foundation of communicative competency upon students' arrival in Amman. After the first week, course hours taper to an average of 5 hours per week.

Driven by the concept of communicative proficiency and the goal of functional competency, CET Jordan treats Arabic language as one system of communication, guiding students to employ the appropriate register to perform a variety of real-life communicative functions. CET's Modern Standard Arabic (MSA) and Jordanian dialect courses focus on their respective registers, however; overlap is encouraged in a way that mirrors the diglossic nature of the Arabic-speaking world.

The course employs a student-centered approach and focuses on communicative competence through the completion of concrete tasks, both in and outside the classroom, including interaction with native Arabic speakers. In order to prepare students for daily interactions with local people and engagement with contemporary Arab culture, class sessions incorporate elements of written and aural media produced for native speakers. Special attention is given to cultural and social themes which demonstrate the diversity of local perspectives and highlight the power dynamics that help shape them.

Students practice interactive functional skills such as listening comprehension and conversation strategies, (linguistic and cultural) working to communicate effectively on an increasing range of subjects and integrate Jordanian dialect into their preexisting knowledge of MSA. Students are expected to have basic daily conversations in the internship workplace or as they interact with local people in pursuit of their research project. Students in the internship/research tracks have the same required tasks as the students in the equivalent intensive language track, but in fewer course hours.

Objectives

Upon successful completion, students:

- Productively integrate MSA and Jordanian dialect to discuss advanced topics/issues as sociolinguistically and culturally appropriate
- Incorporate cultural references, pertinent vernaculars, idioms, socio-cultural expressions and proverbs in the appropriate contexts

CET Syllabus of Record

- Understand multiple aspects of Jordanian society as displayed through Jordanian television
- Utilize an expanded vocabulary with improved grammatical accuracy
- Correctly construct paragraphs of at least seven sentences with advanced connecting words
- Learn to create questions and answers, then advance to creating more advanced conversations
- Understand and use the three tenses (past, present, future)
- Utilize vocabulary in simple contexts with proper subject-verb agreement, adjective agreement and tenses

Course Requirements

The pace of instruction is intensive. Students are expected to thoroughly prepare for each class and to actively participate. In-class activities and homework may include listening to audio materials, memorizing new patterns and vocabulary, completing written assignments, reviewing material learned the previous day, and activating new vocabulary. Class attendance, as defined by the CET Attendance Policy, is critical for success in the course, as is learning how to engage and navigate Jordan's cultural environment.

All homework assignments are due at the beginning of class and late assignments are not accepted. Quizzes and pop quizzes are administered throughout the term. Each month, students prepare a project connecting to the subjects and learning objectives covered that month. During the final week, students undergo an oral interview exam covering the depth and breadth of material covered throughout the summer. Individual interviews last approximately 15 minutes. Each student is required to create and record an original skit, individually or in a group, to be submitted to the instructor during the final week of classes. Vocabulary used in the skit is prepared and distributed to the class prior to performance.

In addition to time in class, students should expect to spend a minimum of one hour studying for every hour spent in the classroom. Field-based excursions, for which attendance is required, may include a cooking activity, café activity, and farm activity.

Grading

Students are evaluated on the four skills (reading, writing, speaking, and listening) through quizzes, skits, written and oral exams and class participation.

The final grade is determined as follows:

- Participation: 20%
- Homework: 20%
- Exams and Quizzes: 30%
- Monthly Projects: 10%
- Final Oral Interview: 10%
- Final Skit: 10%
